

VERTIGO - WALK THE PLANK

DESCRIPTION :

Vertigo is a virtual reality game that lets you experience the fear of walking on a narrow plank hundreds of feet above the ground. The task is to walk the plank and rescue the kitty. The virtual reality technology along with the fans blowing air at a certain velocity, creates an actual environment of one walking the plank on that height. The technology behind this game is cinematic. You immerse yourself in the game with the Oculus, the Unity Game engine delivers the thrill of gathering all the courage to steadily move forward on the plank, taking the kitty and returning back. Remember, falling off the plank means game over.

Technical Specifications

Operator Required	Yes
On-site Technician required	Common
Length(Depth) / Width / Height - (Feet)	18/10/10
Floor area required	240
Weight (KG)	550
